DFW INSTRUMENT, LLC ANNOUNCES GARMIN DEALERSHIP

DALLAS (June 15, 2017) – DFW Instrument, LLC (<http://dfwinstruments.com>), a portfolio company of The CapStreet Group company, announces the addition of Garmin to its' comprehensive list of strategic dealership partners at its' Addison, TX (ADS) FAA Repair Station (DZMR112L).

“With over 20 years of avionics installation and upgrade experience, including many Garmin products, formally adding Garmin as a strategic partner adds significant value to our business”, commented James Zollo, President & General Manager.

“While we offer the full line of Garmin products across all fleets, they fit particularly well with our focus to provide total aircraft maintenance solutions to King Air and Citation series aircraft operators in the N. Central Texas/Southern Oklahoma and Louisiana regions. This is a wonderful addition to our service offering which includes inspections and certifications, instrument repair, avionics-including the mandated **ADS-B** and Wi-Fi installation, Pitot Static test equipment and aircraft maintenance” added Josh Abelson, Chief Executive Officer.

To learn more or to schedule service, please contact sales@dfwinstruments.com

DFW Instrument, LLC is a dealer for Rockwell Collins, Honeywell, Gogo, Bendix King, Genesys Aerosystems, L3, Avidyne, Cobham, Flight Display Systems and Garmin.
